SUMMARY

Front-End Developer and third-year Computer Systems Engineering student at Palestine Technical University – Kadoorie, aspiring to grow into a Full-Stack Developer. Skilled in HTML, CSS, JavaScript, Bootstrap, Tailwind CSS, Git, and GitHub, with hands-on experience through personal projects and technical training. Currently serving as a Student Ambassador for ENG4YOU, Flasha, and Nawras Edu — all roles earned through competitive interview processes — while continuously building technical, problem-solving, and collaboration skills. Passionate about learning modern web technologies and creating clean, responsive, and intuitive user experiences.

EXPERIENCE

Front-End Development Trainee Jul 2026 – Sep 2026

BinX Tech — Nablus

- Completed an intensive Front-End Development training program focused on building modern and responsive web interfaces.
- Applied HTML, CSS, and JavaScript fundamentals through practical projects.
- Strengthened skills in UI development, clean code practices, and user experience principles.

Student Ambassador May 2026 – Current

ENG4YOU — Remote

- Selected through a competitive interview process to serve as Student Ambassador, supporting educational opportunities and engaging with the student community.
- Developed communication, leadership, and teamwork skills through community activities.

Student Ambassador Sep 2026 – Current

Flasha

- Selected through a competitive interview process to represent Flasha as a Student Ambassador.
- Promoted the platform among students and supported community engagement initiatives.

Student Ambassador – Event Manager Sep 2026 – Current

Nawras Edu

- Selected through a competitive interview process to serve as Student Ambassador, taking on the role of Event Manager.
- Planned and coordinated events, strengthening organizational and leadership skills.

EDUCATION

Bachelor's Degree, Computer Engineering (3rd Year) Jan 2024 – Aug 2029

Palestine Technical University – Kadoorie

- Relevant Coursework: Programming Fundamentals (C++), Object-Oriented Programming (OOP), Data Structures, Computer Systems Basics

SKILLS

Languages & Concepts: HTML, CSS, JavaScript Fundamentals, C++, Java, Data Structures, Object-Oriented Programming (OOP)

Frameworks & Tools: Bootstrap, Tailwind CSS, Git, GitHub, VS Code

Focus Areas: Responsive Web Design, Problem-Solving

LANGUAGES

Arabic — Native | English — Intermediate

ACHIEVEMENTS

- Selected for a competitive Front-End Development Internship at BinX Tech during the second year of Computer Systems Engineering studies.
- Developed multiple front-end projects using HTML, CSS, JavaScript, Bootstrap, and Tailwind CSS, strengthening practical web development skills.
- Built responsive and user-friendly web applications, including a To-Do List, Personal Portfolio, and other front-end projects.
- Actively participated in technical bootcamps and workshops, continuously enhancing skills in web development, AI, and software engineering.

CERTIFICATIONS & LICENSES

- One Million Prompters Program — Dubai Centre for Artificial Intelligence
- AI Foundations & MVP Bootcamp — BinX Tech
- Web Development Boot Camp — CSE Club, PTUK
- Palestine Launchpad with Google – Intro to Programming — Udacity
- Building a Personal Bio Page Workshop — Qafza
- Java & Object-Oriented Programming (OOP) — Noqta
- Data Structures — Noqta
